2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Anderson Union High School District has a Community Day School (CDS) program as a component of the Anderson High School District Alternative Education Department. Community Day School provides appropriate education for younger students with behavioral needs beyond the capacity of that of a typical comprehensive school setting. The Community Day School serves students in 9th and 10th grades and/or students under the age of 16. CDS provides education in a self-contained classroom. A single teacher per classroom is utilized to instruct all subjects. This allows for better behavioral consistency. All curriculum is consistent with California State Standards. The primary goal of CDS is behavioral modification and eventual transition to a more comprehensive site.

Mission Statement:

The mission of the Anderson Union High School District, the staff of Community Day School will provide every student the opportunity to develop the knowledge, skills, and character required to be successful students and responsible members of the community.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

Anderson Community Day School is located in a building that was erected in 1992. It is an excellent facility, with one large classroom, a kitchen a restroom and an office. There is a cart with 15 wifi enabled Chromebooks. The CDS site is in close proximity to Anderson High School and North Valley High School.

The janitorial staff cleans on a weekly basis, and maintenance staff assists when indicated maintenance is warranted. The Anderson Union High School District IT department monitors and provided needed maintenance. The CDS campus is designated as a closed campus, as well as has posted no smoking/vaping signs.

The district continues to maintain a deferred maintenance program despite legislative changes affecting the funding and requirements of the traditional State School Deferred Maintenance program. The district budgets for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

Mathematics (grades 3-8 and 11)	N/A		N/A		N/A	

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 Career Technical Education Programs

Anderson Union High School has several courses that are aligned with California Industry Sector Pathways. Examples include:

Our Freshman Career Choices curriculum is the foundation for preparing students to focus on a career and exploring our CTE pathways. Nearly all of our students participate in one way or another in CTE classes where they gain valuable “real-world” experiences with industry standard skills.

Another strength of our program is our ability to prepare students to attend the Shasta Trinity Regional Occupation Center. Our students have choices in Firefighting, Administration of Justice, Culinary, Medical Careers, Cosmetology, Careers with Children, Cisco Networking, and Automotive Technology. Our students complete a program with important job skills and work place confidence enabling them to be competitive in the job market or in their college studies, and this educational programming follows the students through to opportunities beyond the CDS program.

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Parental involvement is paramount in a student being successful at Anderson Community Day School (ACDS). Information regarding school activities/transportation is relayed via the Parent Square communication program. Additionally, all parents have phone/email access to the CDS teacher, and/or administration. All parents may access information via phone: (530) 365-6054

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	29.27	4.15	2.45
Expulsions	0.00	0.06	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

The Community Day School Safety Plan was last reviewed in September of 2022. The purpose of the School Safety Plan is to provide staff, students, and community with information about how school and community personnel and resources will be utilized in emergency situations. CDS has a staff of 2 and a student body of 18. The high staff to student ratio allows for greater student supervision and oversight. Visitors check in at the front office, and a procedure is in place that notifies the main office of an intruder. In this event the office staff alerts all faculty/staff. Parents may review the School Safety Plan by making a request through the school office.

Professional Development

The primary areas of focus for staff development are Credit Recovery and Restorative Practices. Student performance, credit achievement and attendance data are used to determine the need for professional development. Professional development is delivered in after school workshops, conference attendance, and individual mentoring. Teachers are supported during implementation through teacher/admin coaching, and through student performance data reporting. Staff development focuses on best instructional practices, restorative practices, assessment, and collaboration. The district uses three full days dedicated to staff development, providing in-service opportunities for all staff. Staff is encouraged to attend local regional, and national conferences specific to their area of instruction. Each site has collaboration time dedicated in their schedule to promote exchange of ideas.

Teachers are supported throughout the year with formal and informal evaluation. The district has four Instructional coaches who coordinate efforts to improve instruction. Student performance data is gathered through CST and benchmark testing.

For the previous three school years, we had three days each year dedicated to staff and professional development.

This table displays the number of school days dedicated to staff development and continuous improvement.
