

Excluding staff/student with COVID-19 exposure from the site for 10 days after the last known COVID-19 exposure to a COVID-19 case.
COVID-19 cases with COVID-19 symptoms will not return to school until all the following have occurred:
At least 24 hours have passed since a fever of 100.4 or higher has resolved without the use of fever-reducing medications.
COVID-19 symptoms have improved.
At least 10 days have passed since COVID-19 symptoms first appeared.
COVID-19 cases who tested positive but never developed COVID-19 symptoms will not return to work until a minimum of 10 days have passed since the date of specimen collection of their first positive COVID-19 test.
If an order to isolate or quarantine is issued by a local or state health official, the employee/student will not return until the period of isolation or quarantine is completed or the order is lifted. If no period was specified, then the period will be 10 days from the time the order to isolate was effective, or 14 days from the time the order to quarantine was effective.
Employees should report symptoms to their supervisor and then to the District Office. Students should report to their site principal.

X Physical Distancing: How space and routines will be arranged to allow for physical distancing of students and staff.

In order to maintain a campus environment that allows for social distancing, the district shall:
Assess the capacity of school facilities, including classrooms, cafeterias, multi-purpose rooms, gyms, and outdoor areas, and determine the means by which the facilities can best be utilized considering space and time alternatives.
Mark six-foot boundaries within classrooms, common areas, outdoor spaces, and places where students are likely to gather so that students and staff are more readily aware of and can more easily abide by social distancing requirements
Utilize restroom stalls and sinks in a manner that allows for social distancing, such as limiting the number of staff who may use the restroom at a time, blocking off every other stall or sink from use, and/or marking six-foot boundaries
Minimize the mixing of staff in common spaces, such as in cafeterias and libraries
Reduce the number of persons in an area at one time, including visitors.
Have visual cues such as signs and floor markings to indicate where employees and others should be located or their direction and path of travel.

Individuals will be kept as far apart as possible when there are situations where six feet of physical distancing cannot be achieved.

Please provide the planned maximum and minimum distance between students in classrooms.

Maximum: feet

Minimum feet

If this is less than 6 feet, please explain why it is not possible to maintain a minimum of at least 6 feet.

We would have to displace 165 students with no educational option within our district due to lack of classrooms and teachers.

X **Staff Training and Family Education:** How staff will be trained and families will be educated on the application and enforcement of the plan.

We will provide effective training and instruction with our employees through a training video which covers what COVID-19 is, how it can be transmitted, physical distancing measures, importance of frequent hand washing and proper use of face coverings. We will provide communication to our families on a regular basis through our websites and Aeries Communicate.

X **Testing of Staff:** How school officials will ensure that students and staff who have symptoms of COVID-19 or have been exposed to someone with COVID-19 will be rapidly tested and what instructions they will be given while waiting for test results. Below, please describe any planned periodic asymptomatic staff testing cadence.

We provide information on COVID-19 testing sites to all employees in the exposed workplace except for employees who were not present during the period of an outbreak identified by a local health department or the relevant 14-day period. COVID-19 testing will be provided at no cost to employees during employees' working hours.

Staff asymptomatic testing cadence. Please note if testing cadence will differ by tier:

X **Testing of Students:** How school officials will ensure that students who have symptoms of COVID-19 or have been exposed to someone with COVID-19 will be rapidly tested and what instructions they will be given while waiting for test results. Below, please describe any planned periodic asymptomatic student testing cadence.

Students are sent home immediately and are given instructions on the process and how to transition to Distance Learning

Planned student testing cadence. Please note if testing cadence will differ by tier:

Same as above

X **Identification and Reporting of Cases:** At all times, reporting of confirmed positive and suspected cases in students, staff and employees will be consistent with [Reporting Requirements](#).

It is our policy to:
Report information about COVID-19 cases at our school to the local health department whenever required by law, and provide any related information requested by the local health department.
Report immediately to Cal/OSHA any COVID-19-related serious illnesses or death, occurring in school.
Maintain records of the steps taken to implement our written COVID-19 Prevention Program in accordance with CCR Title 8 section 3203(b).
Make our written COVID-19 Prevention Program available to employees, authorized employee representatives, and to representatives of Cal/OSHA immediately upon request.

X **Communication Plans:** How the superintendent will communicate with students, staff, and parents about cases and exposures at the school, consistent with privacy requirements such as FERPA and HIPAA.

The superintendent ensures that we have effective communication with staff, parents and students in a form they can readily understand. Communication is done when necessary through Aeries communicate and emails.

Consultation: (For schools not previously open) Please confirm consultation with the following groups

N/A

Labor Organization

Name of Organization(s) and Date(s) Consulted:

Name: CTA & CSEA

Date: 4/30/2020, 6/1/2020,

Parent and Community Organizations

Name of Organization(s) and Date(s) Consulted:

Name: Special Board Meeting

Date: 8/4/2020

If no labor organization represents staff at the school, please describe the process for consultation with school staff:

For Local Educational Agencies (LEAs or equivalent) in PURPLE:

Local Health Officer Approval: The Local Health Officer, for (state County) Plan, cases Shasta. County has certified and approved the CRP on this date: . If more than 7 business days have passed since the submission without input from the LHO, the CRP shall be deemed approved.
